TOWNVILLE, Oct. 24. On Friday afternoon at 3 o'clock a trustees' meeting was held with the teachers of meeting was held with the teachers of the Townville High school. Already the trustees have had much improvement made on the school building by having the inside painted; and, by the addition of various tables, desks, blackboards and other equipment, the school has been made more attractive. Despite the unfortunate cotton situation, the trustees are going to add much to the efficiency of the school this year by gradually adding improvement of numerous kinds. In addition to transacting other important business and laying plans for the school session, the trustees and teachers decided to have a monthly meeting for discussing various topics.

toachers decided to have a monthly meeting for discussing various topics. After the trustees' meeting on Friday afternoon, the School Improvement Association met. Much important business was transacted. Besides presenting the school with a sanitary drinking fountain, and giving a hundred songbooks for use in chapel, and one hundred and forty small books to be used as supplementary reading, the association decided to give five deliars to secure books for the library. In addition to formulating plans for raising money, the members decided to do considerable work in vaflous ways for the permanent improvement of the school grounds.

than that of last year.

However, the full colored enrollment will not be reached until after the cotton picking season. The white enrollment, too, continues to increase as time passes. As is shown by the above table the white enrollment for the first month last year was 1841. For the whole session it was 2,242—an increase of about 21 per cent. A like increase this year will give a final enrollment of something like twenty-five hundred white pupils. The total enrollment white and colored is expected to reach 4,000 pupils.

The schools will have frequent

To the Voiers of the State of South Carolins:
At the last meeting of the General Assembly, at our suggestion, two amendments to our State Constitution were proposed for the betterment of this school opened Monday morning. Sept. 14, 1914, with an attendance of Messrs. Nichols of Columbia, a student, and McCuen, a local pastor. Two addresses were made by the ministers. The trustees, patrona and friends of the school were present, thereby showing their willingness to cooperate with the teachers who are Prof. W. C. In order to effect this change of classification it is necessary to make the school our constitution in two places. First it is necessary to make the school more development of the state.

were allowed to remain a burden to their parents and their friends. About is half century ago, great advancement had been made when a large majority of the states had established schools under the name of "Asylums" for the deaf and the blind children. So ignorant were the masses of the people in regard to the ability and needs of these children that they could not disassociate the charitable idea from a deaf and a blind child. But there has come a general awakening in all our states. They are recognizing the fact, that every deaf and every blind, child within the bounds of these United States has a right to be be for an education and a right to hope that it will not be handed out to him with the label of charity upon it, while his more fortunate brothers and sisters get the same thing and there is not the suspicion of charity with it. The work done at our school is educational in the highest senso for it includes instruction along liferary, musical, industrial, physical and moral lines.

Our graduates are successful men and women winning their way in the world and gaining the respect of the beople around them; they are never thjects of charity and the school has made with the penal and charitable work it pur state. For years, for all practical purposes, our classification has been educational but legally we have married the stamp of charity upon us for the away the last vestige of the barity idea from our school.
